

LOGANSOLOMAN Home

Welcome to the new "Wiki" Space from Jammie Logan and Jim Soloman.

You find here all related product and project informations.

This website contains official documents and informations from their products.

As a alpha tester/builder i share also my own experience and help here. Each product is called "project" here and you find for each project a page and subpage with schematics, to view schematics you need create an account and send me an email to get access.

(only official alpha tester and customers get access)

Jim Soloman (USA) and Jammie Logan (UK) are the founders of LOGAN SOLOMAN

first DAVID DEMO from me:
